

## Test case# 1

**Summary:** Testing the translation of a selected sentence

### Preconditions:

1. Go to Web Application [Google translate](#)

Test Steps:	Expected Results:
1. Select required languages: English into Espareto	1. The name of the selected languages will appear in the Menu bar. English is on the left, Espareto is on the right.
2. Enter the selected sentence in English. For example: "I am fine".	2. There should be a translation in Espareto: "Mi fartas bone".
3. Click the cross button in the English text input field to delete the original text.	3. Both fields, in English and Esperanto, must be cleared of text and translation.
4. Select another sentence if needed and enter it in the text field in English	4. The Espareto translation of the selected sentence should appear in the right text box
